

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

CHILI, NEW YORK

The American Naturalist

A Monthly Journal Devoted to the
Natural Sciences in Their Widest Sense.

Since its foundation in 1867 by four of the pupils
of Louis Agassiz, **THE AMERICAN NATURAL-
IST** has been a representative American maga-
zine of Natural History and has played an
important part in the advancement of science in
this country.

The journal aims to present to its readers the
leading facts and discoveries in the fields of
Anthropology, General Biology, Zoology, Botany,
Paleontology, Geology and Mineralogy, and the
various subdivisions of those subjects.

Annual subscription, \$4.00 net in ad-
vance. Single copies, 35 cents. Foreign
subscription, \$4.60.
